

# Environmental Management System

January 2010

## Roles and Responsibilities

The Managing Director has overall responsibility for ensuring that the objectives of the Environmental Policy are adhered to, achieved and for maintaining an effective Environmental Management System (EMS).

*Specifically the Managing Director will:*

- Ensure that adequate arrangements are in place to effectively implement and maintain the EMS.
- Ensure that compliance with Good Practice Procedures is monitored and reported.
- Ensure that effective corrective action is taken to remedy any deficiencies in compliance with Good Practice Procedures.
- Ensure that an annual Environmental Management Plan is prepared with the objective of securing continuous improvement.
- Appoint or nominate a Manager with specific responsibility for Environmental Management.
